

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: December 2025. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

- November 2025

Locked

November 2025 is locked (closed 2 Dec 2025). These numbers won't change.
- December 2025

Locked

December 2025 is locked (closed 5 Jan 2026). These numbers won't change.
- October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

December's jobs made \$50,453 gross margin (37.4%). Technician time not charged to jobs took \$4,504 and overheads \$57,350, leaving (\$11,401) profit before tax ((8.4%) of revenue). To cover overheads, jobs need a 45.8% gross margin on average.

Gross margin on jobs	\$50,453
Technician wages and on-costs	\$46,800
Technician time charged to jobs (at cost)	\$42,296
Technician time not charged to jobs	\$4,504
Gross profit (the P&L)	\$45,949
Overheads (operating expenses, depreciation, interest)	\$57,350
Profit before tax (the P&L)	(\$11,401)
Revenue	\$135,079
Gross margin on jobs, %	37.4%
Profit before tax, % of revenue	(8.4%)
Gross margin jobs need just to cover overheads and time not charged	45.8%

Line: All

December against December last year
(5.6%)
\$135,079 against \$143,156

Year to date (Jul to Dec 2025)
\$892,942
same period last year: not in the data

Gross margin, year to date
37.4%
\$334,284 before overheads

What it shows
Revenue is \$892,942 this financial year to date (Jul to Dec 2025). Maintenance contracts make the highest gross margin (59.5%); Installations the lowest (27.6%). The business needs 45.8% gross margin just to cover overheads.

What you'd do about it
Installations: 27.6% gross margin, 7.4 points under the 35.0% target: about \$40,735 on \$550,900 of revenue this financial year to date. It's below the 45.8% needed to cover overheads, too. Maintenance contracts: 59.5% gross margin, 24.5 points over the 35.0% target (\$50,664 ahead on \$207,000 this financial year to date).

Total	\$892,942	–	–	\$334,284	37.4%

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

December's client work made \$44,900 gross margin (64.7%). Consultant time not charged to client work took \$17,630 and overheads \$51,260, leaving (\$23,990) profit before tax ((34.6%) of revenue). To cover overheads, client work needs a 99.2% gross margin on average.

Gross margin on client work	\$44,900
Consultant wages and on-costs	\$38,750
Consultant time charged to client work (at cost)	\$21,120
Consultant time not charged to client work	\$17,630
Gross profit (the P&L)	\$27,270
Overheads (operating expenses, depreciation, interest)	\$51,260
Profit before tax (the P&L)	(\$23,990)
Revenue	\$69,420
Gross margin on client work, %	64.7%
Profit before tax, % of revenue	(34.6%)
Gross margin client work need just to cover overheads and time not charged	99.2%
