

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: February 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

January 2026

Locked

January 2026 is locked (closed 3 Feb 2026). These numbers won't change.

February 2026

Locked

February 2026 is locked (closed 3 Mar 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

February's jobs made \$75,710 gross margin (38.6%). Technician time not charged to jobs took (\$4,832) and overheads \$59,320, leaving \$21,222 profit before tax (10.8% of revenue). To cover overheads, jobs need a 27.7% gross margin on average.

Gross margin on jobs	\$75,710
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$59,432
Technician time not charged to jobs	(\$4,832)
Gross profit (the P&L)	\$80,542
Overheads (operating expenses, depreciation, interest)	\$59,320
Profit before tax (the P&L)	\$21,222
Revenue	\$196,372
Gross margin on jobs, %	38.6%
Profit before tax, % of revenue	10.8%
Gross margin jobs need just to cover overheads and time not charged	27.7%

Total	\$1,254,094	–	–	\$468,184	37.3%

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

February's client work made \$63,475 gross margin (63.4%). Consultant time not charged to client work took \$5,270 and overheads \$51,460, leaving \$6,745 profit before tax (6.7% of revenue). To cover overheads, client work needs a 56.7% gross margin on average.

Gross margin on client work	\$63,475
Consultant wages and on-costs	\$38,750
Consultant time charged to client work (at cost)	\$33,480
Consultant time not charged to client work	\$5,270
Gross profit (the P&L)	\$58,205
Overheads (operating expenses, depreciation, interest)	\$51,460
Profit before tax (the P&L)	\$6,745
Revenue	\$100,055
Gross margin on client work, %	63.4%
Profit before tax, % of revenue	6.7%
Gross margin client work need just to cover overheads and time not charged	56.7%
