

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: April 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

- March 2026

Locked

March 2026 is locked (closed 2 Apr 2026). These numbers won't change.
- April 2026

Locked

April 2026 is locked (closed 5 May 2026). These numbers won't change.
- October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

April's jobs made \$68,843 gross margin (41.7%). Technician time not charged to jobs took \$6,456 and overheads \$59,290, leaving \$3,097 profit before tax (1.9% of revenue). To cover overheads, jobs need a 39.8% gross margin on average.

Gross margin on jobs	\$68,843
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$48,144
Technician time not charged to jobs	\$6,456
Gross profit (the P&L)	\$62,387
Overheads (operating expenses, depreciation, interest)	\$59,290
Profit before tax (the P&L)	\$3,097
Revenue	\$164,987
Gross margin on jobs, %	41.7%
Profit before tax, % of revenue	1.9%
Gross margin jobs need just to cover overheads and time not charged	39.8%

Total	\$1,610,581	–	–	\$605,185	37.6%

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

April's client work made \$52,730 gross margin (65.4%). Consultant time not charged to client work took \$19,740 and overheads \$51,660, leaving (\$18,670) profit before tax ((23.2%) of revenue). To cover overheads, client work needs a 88.6% gross margin on average.

Gross margin on client work	\$52,730
Consultant wages and on-costs	\$46,500
Consultant time charged to client work (at cost)	\$26,760
Consultant time not charged to client work	\$19,740
Gross profit (the P&L)	\$32,990
Overheads (operating expenses, depreciation, interest)	\$51,660
Profit before tax (the P&L)	(\$18,670)
Revenue	\$80,590
Gross margin on client work, %	65.4%
Profit before tax, % of revenue	(23.2%)
Gross margin client work need just to cover overheads and time not charged	88.6%
