

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: June 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

May 2026

Locked

May 2026 is locked (closed 2 Jun 2026). These numbers won't change.

June 2026

Locked

June 2026 is locked (closed 2 Jul 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

June's jobs made \$66,663 gross margin (38.5%). Technician time not charged to jobs took \$2,410 and overheads \$59,260, leaving \$4,993 profit before tax (2.9% of revenue). To cover overheads, jobs need a 35.6% gross margin on average.

Gross margin on jobs	\$66,663
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$52,190
Technician time not charged to jobs	\$2,410
Gross profit (the P&L)	\$64,253
Overheads (operating expenses, depreciation, interest)	\$59,260
Profit before tax (the P&L)	\$4,993
Revenue	\$173,163
Gross margin on jobs, %	38.5%
Profit before tax, % of revenue	2.9%
Gross margin jobs need just to cover overheads and time not charged	35.6%

Line: All

Growth is year on year: each month against the same month a year earlier. Every month, by line, is in the Excel download.

By line: financial year to date (Jul to Jun 2026) against the same period last year

	Year to date	Same period last year	Growth	Gross margin \$	Gross margin %
Maintenance contracts	\$436,300	–	–	\$259,656	59.5%
Installations	\$1,207,100	–	–	\$342,830	28.4%
Call-outs and repairs	\$302,307	–	–	\$132,467	43.8%
Total	\$1,945,707	–	–	\$734,953	37.8%

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

June's client work made \$69,490 gross margin (60.1%). Consultant time not charged to client work took \$6,840 and overheads \$52,050, leaving \$10,600 profit before tax (9.2% of revenue). To cover overheads, client work needs a 51.0% gross margin on average.

Gross margin on client work	\$69,490
Consultant wages and on-costs	\$46,500
Consultant time charged to client work (at cost)	\$39,660
Consultant time not charged to client work	\$6,840
Gross profit (the P&L)	\$62,650
Overheads (operating expenses, depreciation, interest)	\$52,050
Profit before tax (the P&L)	\$10,600
Revenue	\$115,550
Gross margin on client work, %	60.1%
Profit before tax, % of revenue	9.2%
Gross margin client work need just to cover overheads and time not charged	51.0%
