

SAMPLE DATA · invented figures for demonstration

Which jobs actually make money?

Period: September 2026. Every job's gross margin: revenue less materials, subcontractors and technician time at \$68 an hour (fully loaded: wages and all on-costs). Pick a type of job and every number, chart and note on the page follows it.

How final is this data?

- August 2026

Locked

August 2026 is locked (closed 2 Sep 2026). These numbers won't change.
- September 2026

Locked

September 2026 is locked (closed 2 Oct 2026). These numbers won't change.
- October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

September's jobs made \$73,107 gross margin (36.1%). Technician time not charged to jobs took \$3,430 and overheads \$59,580, leaving \$10,097 profit before tax (5.0% of revenue). To cover overheads, jobs need a 31.1% gross margin on average.

Gross margin on jobs	\$73,107
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$51,170
Technician time not charged to jobs	\$3,430
Gross profit (the P&L)	\$69,677
Overheads (operating expenses, depreciation, interest)	\$59,580
Profit before tax (the P&L)	\$10,097
Revenue	\$202,337
Gross margin on jobs, %	36.1%
Profit before tax, % of revenue	5.0%
Gross margin jobs need just to cover overheads and time not charged	31.1%

Gross margin %

Gross margin \$

What it shows

3 of the 6 installation jobs invoiced in September made less than the 35.0% job gross margin target. The Wacol warehouse switchboard made a 13.5% job gross margin: 150.0 h of technician time (\$10,200) and \$7,400 of subcontractors on a \$46,800 job. Jobs need 31.1% gross margin just to cover overheads.

What you'd do about it

3 installations under the 35.0% target, worth about \$12,497 between them on \$87,100 of revenue. The biggest gap, Wacol warehouse switchboard: 13.5% gross margin, 21.5 points under the 35.0% target: about \$10,080 on \$46,800 of revenue in September. It's below the 31.1% needed to cover overheads, too.

\$9,594

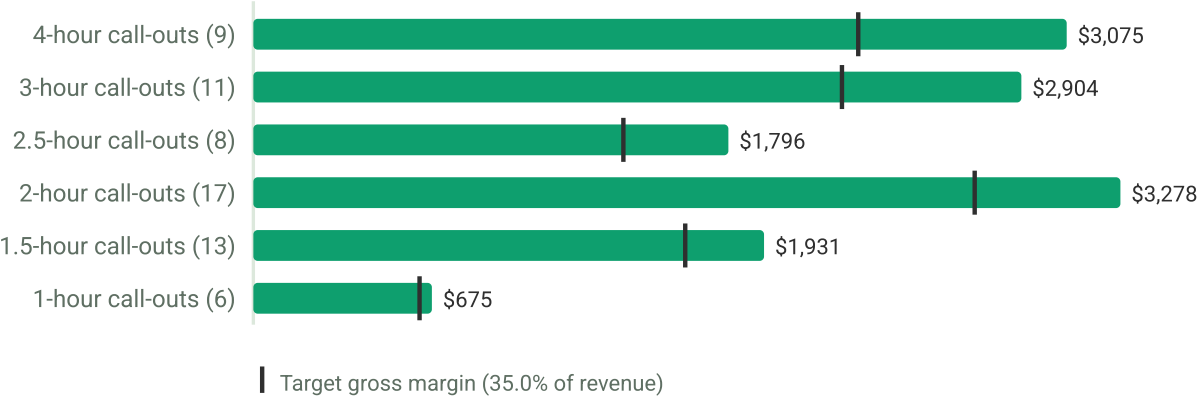

\$7,380 at cost, plus 30%

Job gross margin on call-outs by length, September 2026

Gross margin %

Gross margin \$

What it shows

64 call-outs in September billed \$21,543 of technician time and \$9,594 of materials (\$7,380 at cost plus 30%), and made a 43.9% job gross margin between them. Gross margins run from 37.6% to 47.1% by length: the hourly rate covers technician time comfortably, so the gross margin mostly moves with how much material goes on the van.

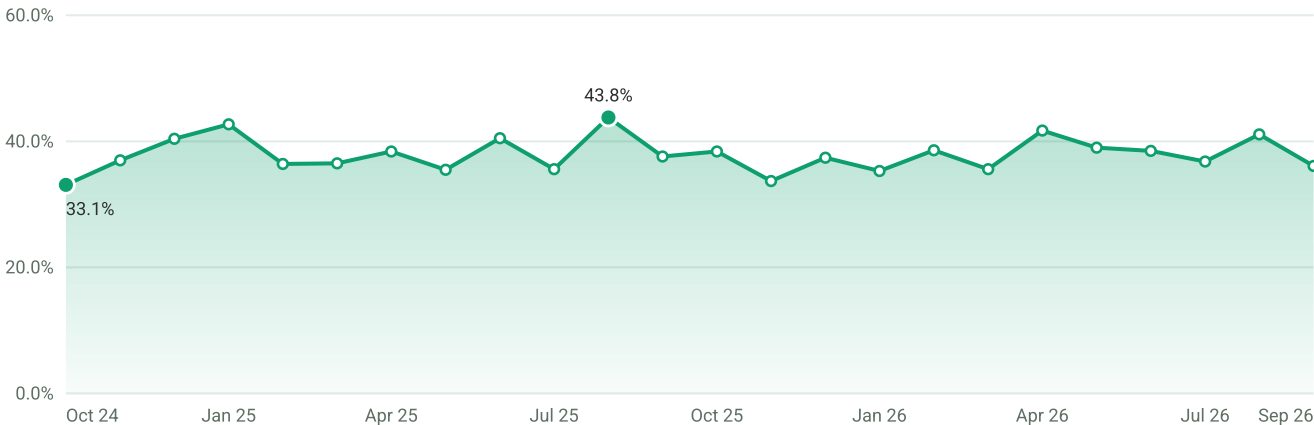

What you'd do about it

All call-outs: 43.9% gross margin, 8.9 points over the 35.0% target (\$2,761 ahead on \$31,137 in September).
