

SAMPLE DATA · invented figures for demonstration

## Which jobs actually make money?

**Period: October 2026 to date.** Every job's gross margin: revenue less materials, subcontractors and technician time at \$68 an hour (fully loaded: wages and all on-costs). Pick a type of job and every number, chart and note on the page follows it.

### How final is this data?

**September 2026** Locked September 2026 is locked (closed 2 Oct 2026). These numbers won't change.  
**October 2026** Incomplete October 2026 is still in progress: figures to 6 Oct only.

### Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

### From gross margin to profit · latest closed month: September

October is still in progress and wages are paid fortnightly, so a part month can't be bridged: this is September, the latest closed month. September's jobs made \$73,107 gross margin (36.1%). Technician time not charged to jobs took \$3,430 and overheads \$59,580, leaving \$10,097 profit before tax (5.0% of revenue). To cover overheads, jobs need a 31.1% gross margin on average.

Job gross margin on call-outs by length, October 2026 to date

What it shows

7 call-outs in October so far billed \$2,465 of technician time and \$910 of materials (\$700 at cost plus 30%), and made a 45.0% job gross margin between them. Gross margins run from 41.0% to 48.1% by length: the hourly rate covers technician time comfortably, so the gross margin mostly moves with how much material goes on the van.

What you'd do about it

All call-outs: 45.0% gross margin, 10.0 points over the 35.0% target (\$338 ahead on \$3,375 in October so far).
