

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: October 2025. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

September 2025	Locked	September 2025 is locked (closed 2 Oct 2025). These numbers won't change.
October 2025	Locked	October 2025 is locked (closed 4 Nov 2025). These numbers won't change.
October 2026	Incomplete	October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

October's jobs made \$49,446 gross margin (38.4%). Technician time not charged to jobs took \$9,638 and overheads \$57,980, leaving (\$18,172) profit before tax ((14.1%) of revenue). To cover overheads, jobs need a 52.5% gross margin on average.

Gross margin on jobs	\$49,446
Technician wages and on-costs	\$46,800
Technician time charged to jobs (at cost)	\$37,162
Technician time not charged to jobs	\$9,638
Gross profit (the P&L)	\$39,808
Overheads (operating expenses, depreciation, interest)	\$57,980
Profit before tax (the P&L)	(\$18,172)
Revenue	\$128,898
Gross margin on jobs, %	38.4%
Profit before tax, % of revenue	(14.1%)
Gross margin jobs need just to cover overheads and time not charged	52.5%

Line: All

October against October last year
(24.6%)
\$128,898 against \$171,009

Year to date (Jul to Oct 2025)
\$583,077
same period last year: not in the data

Gross margin, year to date
38.6%
\$224,987 before overheads

What it shows
Revenue is \$583,077 this financial year to date (Jul to Oct 2025). Maintenance contracts make the highest gross margin (59.5%); Installations the lowest (29.8%). The business needs 52.5% gross margin just to cover overheads.

What you'd do about it
Maintenance contracts: 59.5% gross margin, the most profitable work you do. Installations: 29.8% gross margin, below the 52.5% needed to cover overheads.

Line: Maintenance contracts

October against October last year
45.1%
\$35,800 against \$24,670

Year to date (Jul to Oct 2025)
\$135,400
same period last year: not in the data

Gross margin, year to date
59.5%
\$80,546 before overheads

What it shows
Maintenance contracts brought in \$135,400 this financial year to date, at a 59.5% gross margin (above the 38.6% overall).

What you'd do about it
Maintenance contracts: 59.5% gross margin, 7.0 points clear of the 52.5% overheads need.

Line: Installations

October against October last year
(43.9%)
\$70,800 against \$126,300

Year to date (Jul to Oct 2025)
\$367,900
same period last year: not in the data

Gross margin, year to date
29.8%
\$109,662 before overheads

What it shows
Installations brought in \$367,900 this financial year to date, at a 29.8% gross margin (below the 38.6% overall).

What you'd do about it
Installations: 29.8% gross margin, below the 52.5% needed to cover overheads.

Line: Call-outs and repairs

October against October last year
11.3%
\$22,298 against \$20,039

Year to date (Jul to Oct 2025)
\$79,777
same period last year: not in the data

Gross margin, year to date
43.6%
\$34,779 before overheads

What it shows
Call-outs and repairs brought in \$79,777 this financial year to date, at a 43.6% gross margin (above the 38.6% overall).

What you'd do about it
Call-outs and repairs: 43.6% gross margin, below the 52.5% needed to cover overheads.

Every line at once

Revenue, gross margin and growth by line, by month

All · Revenue \$

All · Gross margin %

Gross margin = revenue less direct cost (materials, subcontractors and time at cost for trades; contractors and consultant time for services), before overheads. Growth is year on year: each month against the same month a year earlier. Every month, by line, is in the Excel download.

By line: financial year to date (Jul to Oct 2025) against the same period last year

	Year to date	Same period last year	Growth	Gross margin \$	Gross margin %
Maintenance contracts	\$135,400	–	–	\$80,546	59.5%
Installations	\$367,900	–	–	\$109,662	29.8%
Call-outs and repairs	\$79,777	–	–	\$34,779	43.6%
Total	\$583,077	–	–	\$224,987	38.6%

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

October's client work made \$45,720 gross margin (64.2%). Consultant time not charged to client work took \$15,410 and overheads \$51,070, leaving (\$20,760) profit before tax ((29.1%) of revenue). To cover overheads, client work needs a 93.3% gross margin on average.

Gross margin on client work	\$45,720
Consultant wages and on-costs	\$38,750
Consultant time charged to client work (at cost)	\$23,340
Consultant time not charged to client work	\$15,410
Gross profit (the P&L)	\$30,310
Overheads (operating expenses, depreciation, interest)	\$51,070
Profit before tax (the P&L)	(\$20,760)
Revenue	\$71,260
Gross margin on client work, %	64.2%
Profit before tax, % of revenue	(29.1%)
Gross margin client work need just to cover overheads and time not charged	93.3%
