

SAMPLE DATA · invented figures for demonstration

Which jobs actually make money?

Period: November 2025. Every job's gross margin: revenue less materials, subcontractors and technician time at \$68 an hour (fully loaded: wages and all on-costs). Pick a type of job and every number, chart and note on the page follows it.

How final is this data?

October 2025

Locked

October 2025 is locked (closed 4 Nov 2025). These numbers won't change.

November 2025

Locked

November 2025 is locked (closed 2 Dec 2025). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

November's jobs made \$58,844 gross margin (33.7%). Technician time not charged to jobs took (\$3,112) and overheads \$57,960, leaving \$3,996 profit before tax (2.3% of revenue). To cover overheads, jobs need a 31.4% gross margin on average.

Gross margin on jobs	\$58,844
Technician wages and on-costs	\$46,800
Technician time charged to jobs (at cost)	\$49,912
Technician time not charged to jobs	(\$3,112)
Gross profit (the P&L)	\$61,956
Overheads (operating expenses, depreciation, interest)	\$57,960
Profit before tax (the P&L)	\$3,996
Revenue	\$174,786
Gross margin on jobs, %	33.7%
Profit before tax, % of revenue	2.3%
Gross margin jobs need just to cover overheads and time not charged	31.4%

Job gross margin by type of job, November 2025

Gross margin \$

What it shows

In November maintenance contracts made a 59.5% job gross margin, installations made a 23.1% job gross margin, call-outs and repairs made a 44.5% job gross margin (technician time at \$68 an hour, wages and all on-costs). Jobs need 31.4% just to cover overheads.

What you'd do about it

Installations: 23.1% gross margin, 11.9 points under the 35.0% target: about \$13,529 on \$113,300 of revenue in November. It's below the 31.4% needed to cover overheads, too. Maintenance contracts: 59.5% gross margin, 24.5 points over the 35.0% target (\$8,754 ahead on \$35,800 in November).

Job gross margin on each installation invoiced in November 2025

Gross margin %

Gross margin \$

What it shows

3 of the 4 installation jobs invoiced in November made less than the 35.0% job gross margin target. The Windsor office solar and battery made a 13.5% job gross margin: 96.0 h of technician time (\$6,528) and \$2,600 of subcontractors on a \$23,500 job. Jobs need 31.4% gross margin just to cover overheads.

What you'd do about it

3 installations under the 35.0% target, worth about \$14,940 between them on \$85,600 of revenue. The biggest gap, Newstead warehouse solar and battery: 18.8% gross margin, 16.2 points under the 35.0% target: about \$5,527 on \$34,100 of revenue in November. It's below the 31.4% needed to cover overheads, too.

\$18,341

71.4% of call-out revenue

Materials charged, November

\$7,345

\$5,650 at cost, plus 30%

Job gross margin on call-outs by length, November 2025

What it shows

50 call-outs in November billed \$18,341 of technician time and \$7,345 of materials (\$5,650 at cost plus 30%), and made a 44.5% job gross margin between them. Gross margins run from 38.9% to 47.1% by length: the hourly rate covers technician time comfortably, so the gross margin mostly moves with how much material goes on the van.

What you'd do about it

All call-outs: 44.5% gross margin, 9.5 points over the 35.0% target (\$2,444 ahead on \$25,686 in November).
