

SAMPLE DATA · invented figures for demonstration

Which jobs actually make money?

Period: December 2025. Every job's gross margin: revenue less materials, subcontractors and technician time at \$68 an hour (fully loaded: wages and all on-costs). Pick a type of job and every number, chart and note on the page follows it.

How final is this data?

- November 2025

Locked

November 2025 is locked (closed 2 Dec 2025). These numbers won't change.
- December 2025

Locked

December 2025 is locked (closed 5 Jan 2026). These numbers won't change.
- October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

December's jobs made \$50,453 gross margin (37.4%). Technician time not charged to jobs took \$4,504 and overheads \$57,350, leaving (\$11,401) profit before tax ((8.4%) of revenue). To cover overheads, jobs need a 45.8% gross margin on average.

Gross margin on jobs	\$50,453
Technician wages and on-costs	\$46,800
Technician time charged to jobs (at cost)	\$42,296
Technician time not charged to jobs	\$4,504
Gross profit (the P&L)	\$45,949
Overheads (operating expenses, depreciation, interest)	\$57,350
Profit before tax (the P&L)	(\$11,401)
Revenue	\$135,079
Gross margin on jobs, %	37.4%
Profit before tax, % of revenue	(8.4%)
Gross margin jobs need just to cover overheads and time not charged	45.8%

Job gross margin by type of job, December 2025

Gross margin \$

What it shows

In December maintenance contracts made a 59.5% job gross margin, installations made a 23.4% job gross margin, call-outs and repairs made a 43.5% job gross margin (technician time at \$68 an hour, wages and all on-costs). Jobs need 45.8% just to cover overheads.

What you'd do about it

Installations: 23.4% gross margin, 11.6 points under the 35.0% target: about \$8,103 on \$69,700 of revenue in December. It's below the 45.8% needed to cover overheads, too. Maintenance contracts: 59.5% gross margin, 24.5 points over the 35.0% target (\$8,754 ahead on \$35,800 in December).

Job gross margin on each installation invoiced in December 2025

Gross margin %

Gross margin \$

What it shows
3 of the 4 installation jobs invoiced in December made less than the 35.0% job gross margin target. The Wynnum factory solar and battery made a 7.6% job gross margin: 91.0 h of technician time (\$6,188) and \$2,300 of subcontractors on a \$21,200 job. Jobs need 45.8% gross margin just to cover overheads.

What you'd do about it
3 installations under the 35.0% target, worth about \$8,497 between them on \$54,100 of revenue. The biggest gap, Wynnum factory solar and battery: 7.6% gross margin, 27.4 points under the 35.0% target: about \$5,808 on \$21,200 of revenue in December. It's below the 45.8% needed to cover overheads, too.

Technician time charged, December
\$20,154
68.1% of call-out revenue

Materials charged, December
\$9,425
\$7,250 at cost, plus 30%

Job gross margin on call-outs by length, December 2025

What it shows
57 call-outs in December billed \$20,154 of technician time and \$9,425 of materials (\$7,250 at cost plus 30%), and made a 43.5% job gross margin between them. Gross margins run from 37.2% to 46.0% by length: the hourly rate covers technician time comfortably, so the gross margin mostly moves with how much material goes on the van.

What you'd do about it
All call-outs: 43.5% gross margin, 8.5 points over the 35.0% target (\$2,524 ahead on \$29,579 in December).
