

SAMPLE DATA · invented figures for demonstration

Which jobs actually make money?

Period: February 2026. Every job's gross margin: revenue less materials, subcontractors and technician time at \$68 an hour (fully loaded: wages and all on-costs). Pick a type of job and every number, chart and note on the page follows it.

How final is this data?

- January 2026

Locked

January 2026 is locked (closed 3 Feb 2026). These numbers won't change.
- February 2026

Locked

February 2026 is locked (closed 3 Mar 2026). These numbers won't change.
- October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

February's jobs made \$75,710 gross margin (38.6%). Technician time not charged to jobs took (\$4,832) and overheads \$59,320, leaving \$21,222 profit before tax (10.8% of revenue). To cover overheads, jobs need a 27.7% gross margin on average.

Gross margin on jobs	\$75,710
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$59,432
Technician time not charged to jobs	(\$4,832)
Gross profit (the P&L)	\$80,542
Overheads (operating expenses, depreciation, interest)	\$59,320
Profit before tax (the P&L)	\$21,222
Revenue	\$196,372
Gross margin on jobs, %	38.6%
Profit before tax, % of revenue	10.8%
Gross margin jobs need just to cover overheads and time not charged	27.7%

Gross margin \$

Below target

What it shows

3 of the 4 installation jobs invoiced in February made less than the 35.0% job gross margin target. The Salisbury gym air-con install made a 22.9% job gross margin: 71.5 h of technician time (\$4,862) and \$1,300 of subcontractors on a \$18,100 job. Jobs need 27.7% gross margin just to cover overheads.

What you'd do about it

3 installations under the 35.0% target, worth about \$6,913 between them on \$91,500 of revenue. The biggest gap, Kedron shop switchboard upgrade: 24.1% gross margin, 10.9 points under the 35.0% target: about \$3,921 on \$36,100 of revenue in February. It's below the 27.7% needed to cover overheads, too.

Type of job: Call-outs and repairs

Job gross margin on call-outs by length, February 2026

Gross margin %

Gross margin \$

What it shows

57 call-outs in February billed \$20,446 of technician time and \$9,126 of materials (\$7,020 at cost plus 30%), and made a 43.8% job gross margin between them. Gross margins run from 37.0% to 47.8% by length: the hourly rate covers technician time comfortably, so the gross margin mostly moves with how much material goes on the van.

What you'd do about it

All call-outs: 43.8% gross margin, 8.8 points over the 35.0% target (\$2,614 ahead on \$29,572 in February).
