

SAMPLE DATA · invented figures for demonstration

Which jobs actually make money?

Period: July 2026. Every job's gross margin: revenue less materials, subcontractors and technician time at \$68 an hour (fully loaded: wages and all on-costs). Pick a type of job and every number, chart and note on the page follows it.

How final is this data?

- June 2026

Locked

June 2026 is locked (closed 2 Jul 2026). These numbers won't change.
- July 2026

Locked

July 2026 is locked (closed 4 Aug 2026). These numbers won't change.
- October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

July's jobs made \$71,121 gross margin (36.8%). Technician time not charged to jobs took (\$2,214) and overheads \$59,440, leaving \$13,895 profit before tax (7.2% of revenue). To cover overheads, jobs need a 29.6% gross margin on average.

Gross margin on jobs	\$71,121
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$56,814
Technician time not charged to jobs	(\$2,214)
Gross profit (the P&L)	\$73,335
Overheads (operating expenses, depreciation, interest)	\$59,440
Profit before tax (the P&L)	\$13,895
Revenue	\$193,245
Gross margin on jobs, %	36.8%
Profit before tax, % of revenue	7.2%
Gross margin jobs need just to cover overheads and time not charged	29.6%

What it shows

4 of the 4 installation jobs invoiced in July made less than the 35.0% job gross margin target. The Installation 2, July made a 28.2% job gross margin: 133.0 h of technician time (\$9,044) and \$2,700 of subcontractors on a \$34,600 job. Jobs need 29.6% gross margin just to cover overheads.

What you'd do about it

4 installations under the 35.0% target, worth about \$8,580 between them on \$127,600 of revenue. The biggest gap, Installation 2, July: 28.2% gross margin, 6.8 points under the 35.0% target: about \$2,354 on \$34,600 of revenue in July. It's below the 29.6% needed to cover overheads, too.

Job gross margin on call-outs by length, July 2026

Gross margin %

Gross margin \$

What it shows

54 call-outs in July billed \$17,046 of technician time and \$8,099 of materials (\$6,230 at cost plus 30%), and made a 43.4% job gross margin between them. Gross margins run from 37.0% to 45.5% by length: the hourly rate covers technician time comfortably, so the gross margin mostly moves with how much material goes on the van.

What you'd do about it

All call-outs: 43.4% gross margin, 8.4 points over the 35.0% target (\$2,124 ahead on \$25,145 in July).
