

SAMPLE DATA · invented figures for demonstration

How many people did we help this month, and how many couldn't we reach?

Period: July 2026. People helped by each program, day by day, and the people who came to a program but couldn't be helped (and why). People helped are counted against each program's own grant spend.

How final is this data?

June 2026

Locked

June 2026 is locked (closed 2 Jul 2026). These numbers won't change.

July 2026

Locked

July 2026 is locked (closed 4 Aug 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Why people couldn't be helped, July 2026

Main reason	People
Program at capacity	37
Waitlist	30
Couldn't make contact	15
Not eligible	8
Outside the service area	7

What it shows

497 people were helped in July, and 97 came to a program but couldn't be helped: 83.7% reached (target 90.0%), against 82.8% in June.

What you'd do about it

Mental health first aid reached the smallest share: 79.5% (16 couldn't be helped). The main reason: program at capacity (37 people).

Made with Python: laid out in HTML and CSS, printed to PDF in Chromium.
