

SAMPLE DATA · invented figures for demonstration

Will cash cover payroll next month?

Period: August 2026. A 13-week cash forecast from 31 August: cash at bank, plus what customers owe on their usual payment dates and new work at its recent rate, less pay runs, supplier bills, tax and finance on their due dates. Every day opens its workings.

How final is this data?

July 2026

Locked

July 2026 is locked (closed 4 Aug 2026). These numbers won't change.

August 2026

Locked

August 2026 is locked (closed 2 Sep 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Cash at bank, 31 Aug
\$65,263
end of the day

Wages to pay in September
\$75,400
2 fortnightly pay runs

After the tightest pay run, 3 Sep
\$28,828
buffer: one pay run, \$37,700

Lowest point, next 13 weeks
\$17,198
30 November

What it shows
Cash at bank was \$65,263 at 31 August. September has 2 pay runs (\$75,400). The tightest is 3 September: \$28,828 left after paying wages, less than one pay run (\$37,700) in reserve. The lowest point in the 13 weeks is \$17,198 on 30 November.

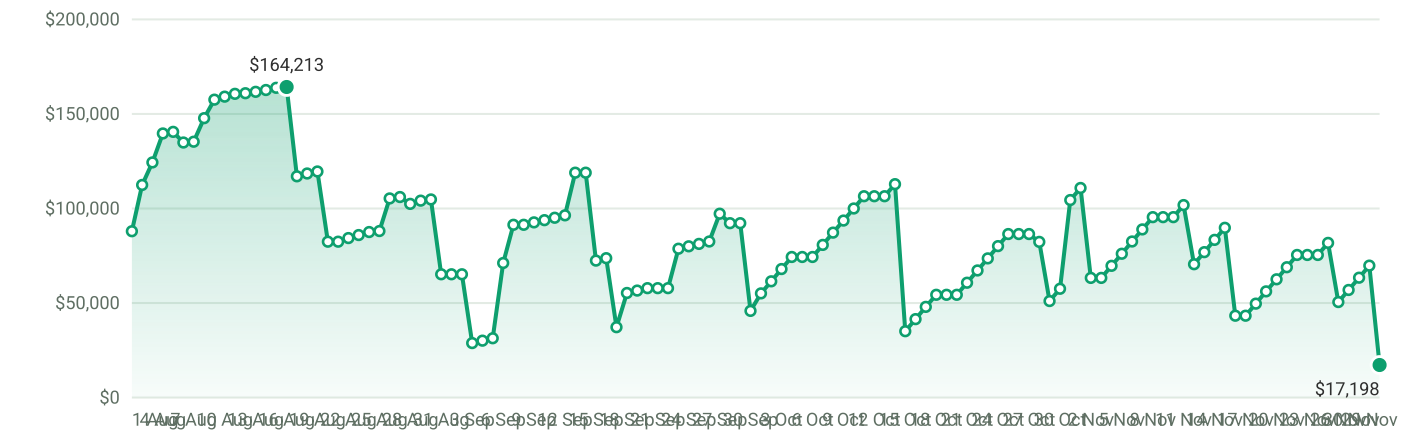

What you'd do about it
15 invoices (\$20,219) are already past the customer's usual payment date; the forecast assumes they arrive within a week. Without them, 3 September would be \$8,609.

How this forecast has done so far
For 5 October it said \$74,351; the bank says \$47,244, \$27,107 less.

Forecast for 5 October	\$74,351
Actual, 5 October	\$47,244
Actual – forecast	(\$27,107)
Of which: invoices expected by then, not yet paid	\$0
Everything else (timing of other money in and out)	(\$27,107)

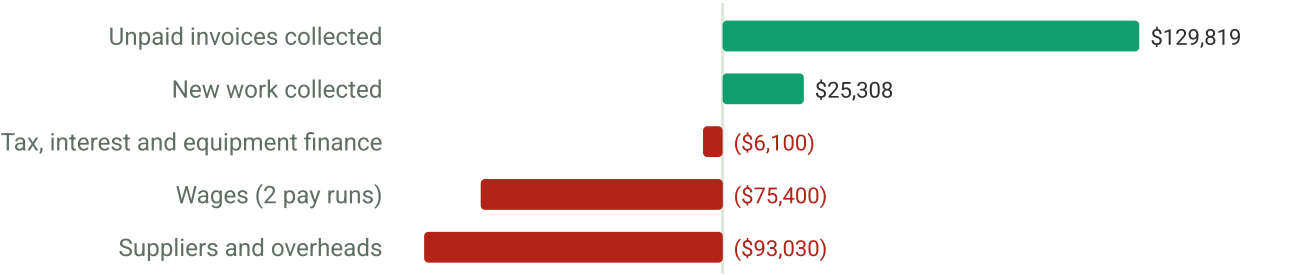

Cash at bank, every day: actual to 31 Aug, then forecast to 30 Nov

All · Cash at bank \$

Lighter line = forecast. Customers are expected on their usual payment dates; new work at the last three months' rate; pay runs, supplier runs, interest, equipment finance and PAYG on their due dates. GST and BAS are left out of the sample. Every month, by line, is in the spreadsheet download.

September: where the cash comes from and goes (forecast)

13 weeks, week by week

Week ending	Cash at start	Unpaid invoices collected	New work collected	Wages	Suppliers and overheads	Tax, interest and finance	Cash at end	Lowest in the week
