

SAMPLE DATA · invented figures for demonstration

## Which jobs actually make money?

**Period: April 2026.** Every job's gross margin: revenue less materials, subcontractors and technician time at \$68 an hour (fully loaded: wages and all on-costs). Before overheads, so this is not profit. Pick a type of job and every number, chart and note on the page follows it.

### How final is this data?

**March 2026** Locked March 2026 is locked (closed 2 Apr 2026). These numbers won't change.

**April 2026** Locked April 2026 is locked (closed 5 May 2026). These numbers won't change.

**October 2026** Incomplete October 2026 is still in progress: figures to 6 Oct only.

### Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

### From gross margin to profit

April's jobs made \$68,843 gross margin (41.7%). Technician time not charged to jobs took \$6,456 and overheads \$59,290, leaving \$3,097 profit before tax (1.9% of revenue). To cover overheads, jobs need a 39.8% gross margin on average.

|                                                                            |              |
|----------------------------------------------------------------------------|--------------|
| Gross margin on jobs                                                       | \$68,843     |

### Job gross margin by type of job, April 2026

Gross margin %

Gross margin \$

What it shows

In April maintenance contracts made a 59.6% job gross margin, installations made a 34.9% job gross margin, call-outs and repairs made a 43.8% job gross margin (technician time at \$68 an hour, wages and all on-costs). Jobs need 39.8% just to cover overheads.

What you'd do about it

Maintenance contracts: 59.6% gross margin, the most profitable work you do. Installations: 34.9% gross margin, below the 39.8% needed to cover overheads.

Type of job: Maintenance contracts

Job gross margin, April · Maintenance contracts

59.6%

March 59.6%

Job gross margin on each maintenance contract, April 2026

Gross margin \$

What it shows

All 13 contracts made more than the 35.0% job gross margin target. The thinnest was Kangaroo Point townhouses at 58.2% job gross margin: 14.0 h of technician time on a \$2,400 monthly fee.

What you'd do about it

The Kangaroo Point townhouses contract: 58.2% gross margin, 18.4 points clear of the 39.8% overheads need. Maintenance contracts overall: 59.6% gross margin.

Type of job: Installations

Job gross margin on each installation invoiced in April 2026

Gross margin %

Gross margin \$

What it shows

2 of the 3 installation jobs invoiced in April made less than the 35.0% job gross margin target. The Logan Central school switchboard upgrade made a 29.5% job gross margin: 132.0 h of technician time (\$8,976) and \$3,800 of subcontractors on a \$38,000 job. Jobs need 39.8% gross margin just to cover overheads.

What you'd do about it

Below the 39.8% overheads need: Kedron warehouse data cabling (39.8%), Rocklea warehouse EV chargers (35.0%), Logan Central school switchboard upgrade (29.5%). Most profitable: Kedron warehouse data cabling (39.8%).

Type of job: Call-outs and repairs

Job gross margin, April · Call-outs and repairs

43.8%

March 43.5%

Technician time charged, April

\$15,950

69.1% of call-out revenue

Materials charged, April

\$7,137

\$5,490 at cost, plus 30%

Job gross margin on call-outs by length, April 2026

Gross margin %

Gross margin \$

What it shows

45 call-outs in April billed \$15,950 of technician time and \$7,137 of materials (\$5,490 at cost plus 30%), and made a 43.8% job gross margin between them. Gross margins run from 38.7% to 46.7% by length: the hourly rate covers technician time comfortably, so the gross margin mostly moves with how much material goes on the van.

What you'd do about it

Call-outs: 43.8% gross margin, 4.0 points clear of the 39.8% overheads need.
