Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages include their on-costs: super (12%) and leave as it's earned. No payroll tax: wages are under Queensland's \$1.3 million threshold.

From gross margin to profit

October's client work made \$53,010 gross margin (67.5%). Consultant time not charged to client work took \$26,820 and overheads \$51,070, leaving (\$24,880) profit before tax ((31.7%) of revenue). To cover overheads, client work needs a 99.2% gross margin on average.

Gross margin on client work	\$53,010
