

SAMPLE DATA · invented figures for demonstration

Will cash cover payroll next month?

Period: September 2026. A 13-week cash forecast from 30 September: cash at bank, plus what customers owe on their usual payment dates and new work at its recent rate, less pay runs, supplier bills, the BAS and finance on their due dates. Every day opens its workings.

How final is this data?

August 2026

Locked

August 2026 is locked (closed 2 Sep 2026). These numbers won't change.

September 2026

Locked

September 2026 is locked (closed 2 Oct 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Cash at bank, 30 Sep
\$120,228
end of the day

Paid to employees in October
\$109,833
3 fortnightly pay runs, net pay + super

After the tightest pay run, 29 Oct
\$69,267
buffer: one pay run, \$36,611

Lowest point, next 13 weeks
\$41,013
30 November

What it shows

Cash at bank was \$120,228 at 30 September. October has 3 pay runs (\$109,833). The tightest is 29 October: \$69,267 left after paying wages, \$32,656 more than a pay run in reserve. The lowest point in the 13 weeks is \$41,013 on 30 November.

What you'd do about it

15 invoices (\$8,734) are already past the customer's usual payment date; the forecast assumes they arrive within a week. Without them, the lowest point would be \$32,279. October is one of the two months a year with three pay runs: \$36,611 more than a usual month. The July to September BAS (\$86,253) is due 28 October: GST \$32,817, PAYG withheld \$47,754 and the PAYG instalment \$5,682.

Cash at bank, every day: actual to 30 Sep, then forecast to 30 Dec

All · Cash at bank \$

Lighter line = forecast. Customers are expected on their usual payment dates; new work at the last three months' rate; pay runs, supplier runs, interest, equipment finance and the BAS on their due dates. Receipts and bills include GST. Money only moves on banking days (not weekends or Queensland public holidays). Every month, by line, is in the spreadsheet download.

October: where the cash comes from and goes (forecast)

13 weeks, week by week

Week ending	Cash at start	Unpaid invoices collected	New work collected	Pay runs	Suppliers and overheads	BAS (GST and PAYG)	Interest and finance	Cash at end	Lowest in the week
