Cost to win a customer, by month

All · \$ per new customer

All · New customers

Customers are counted in the month of their first job. Every month, by line, is in the spreadsheet download.

What it shows
35 new customers came from \$8,400 of marketing in April, against 37 from \$8,400 in March: \$240 each, up from \$227.

What you'd do about it
Worth knowing which channels brought this month's customers in: recording the source of each new customer shows the cost per channel.
