

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: August 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

July 2026

Locked

July 2026 is locked (closed 4 Aug 2026). These numbers won't change.

August 2026

Locked

August 2026 is locked (closed 2 Sep 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

August's jobs made \$73,637 gross margin (41.1%). Technician time not charged to jobs took \$10,060 and overheads \$59,500, leaving \$4,077 profit before tax (2.3% of revenue). To cover overheads, jobs need a 38.9% gross margin on average.

Gross margin on jobs	\$73,637
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$44,540
Technician time not charged to jobs	\$10,060
Gross profit (the P&L)	\$63,577
Overheads (operating expenses, depreciation, interest)	\$59,500
Profit before tax (the P&L)	\$4,077
Revenue	\$179,007
Gross margin on jobs, %	41.1%
Profit before tax, % of revenue	2.3%
Gross margin jobs need just to cover overheads and time not charged	38.9%

Line: All

August against August last year

28.6%

\$179,007 against \$139,164

Year to date against the same period last year

14.2%

\$372,252 against \$325,924

Gross margin, year to date

38.9%

\$144,758 before overheads

What it shows

Revenue is 14.2% up on the same period last year, year to date (\$372,252 against \$325,924). Maintenance contracts make the highest gross margin (59.5%); Installations the lowest (30.8%). The business needs 38.9% gross margin just to cover overheads.

What you'd do about it

Maintenance contracts: 59.5% gross margin, the most profitable work you do. Installations: 30.8% gross margin, below the 38.9% needed to cover overheads.

Line: Maintenance contracts

August against August last year

Year to date against the same period last year

44.0%

\$54,052 against \$37,524

Gross margin, year to date

43.6%

\$23,566 before overheads

What it shows

Call-outs and repairs brought in \$54,052 this financial year to date, 44.0% on the same period last year (faster than the business as a whole, 14.2%), at a 43.6% gross margin (above the 38.9% overall).

What you'd do about it

Call-outs and repairs: 43.6% gross margin, 4.7 points clear of the 38.9% overheads need.

Every line at once

Revenue, gross margin and growth by line, by month

All · Revenue \$

All · Gross margin %

Gross margin = revenue less direct cost (materials, subcontractors and time at cost for trades; contractors and consultant time for services), before overheads. Growth is year on year: each month against the same month a year earlier. Every month, by line, is in the Excel download.

By line: financial year to date (Jul to Aug 2026) against the same period last year

	Year to date	Same period last year	Growth	Gross margin \$	Gross margin %
Maintenance contracts	\$81,000	\$66,400	22.0%	\$48,232	59.5%
Installations	\$237,200	\$222,000	6.8%	\$72,960	30.8%
Call-outs and repairs	\$54,052	\$37,524	44.0%	\$23,566	43.6%
Total	\$372,252	\$325,924	14.2%	\$144,758	38.9%

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

August's client work made \$68,860 gross margin (60.1%). Consultant time not charged to client work took \$7,620 and overheads \$53,650, leaving \$7,590 profit before tax (6.6% of revenue). To cover overheads, client work needs a 53.4% gross margin on average.

Gross margin on client work	\$68,860
Consultant wages and on-costs	\$46,500
Consultant time charged to client work (at cost)	\$38,880
Consultant time not charged to client work	\$7,620
Gross profit (the P&L)	\$61,240
Overheads (operating expenses, depreciation, interest)	\$53,650
Profit before tax (the P&L)	\$7,590
Revenue	\$114,640
Gross margin on client work, %	60.1%
Profit before tax, % of revenue	6.6%
Gross margin client work need just to cover overheads and time not charged	53.4%
