

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: October 2025. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

September 2025

Locked

September 2025 is locked (closed 2 Oct 2025). These numbers won't change.

October 2025

Locked

October 2025 is locked (closed 4 Nov 2025). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

October's jobs made \$49,446 gross margin (38.4%). Technician time not charged to jobs took \$9,638 and overheads \$57,980, leaving (\$18,172) profit before tax ((14.1%) of revenue). To cover overheads, jobs need a 52.5% gross margin on average.

Gross margin on jobs	\$49,446
Technician wages and on-costs	\$46,800
Technician time charged to jobs (at cost)	\$37,162
Technician time not charged to jobs	\$9,638
Gross profit (the P&L)	\$39,808
Overheads (operating expenses, depreciation, interest)	\$57,980
Profit before tax (the P&L)	(\$18,172)
Revenue	\$128,898
Gross margin on jobs, %	38.4%
Profit before tax, % of revenue	(14.1%)
Gross margin jobs need just to cover overheads and time not charged	52.5%

Line: All

October against October last year
(24.6%)
\$128,898 against \$171,009

Year to date (Jul to Oct 2025)
\$583,077
same period last year: not in the data

Gross margin, year to date
38.6%
\$224,987 before overheads

What it shows

Revenue is \$583,077 this financial year to date (Jul to Oct 2025). Maintenance contracts make the highest gross margin (59.5%); Installations the lowest (29.8%). The business needs 52.5% gross margin just to cover overheads.

What you'd do about it

Installations: 29.8% gross margin, 5.2 points under the 35.0% target: about \$19,103 on \$367,900 of revenue this financial year to date. It's below the 52.5% needed to cover overheads, too. Maintenance contracts: 59.5% gross margin, 24.5 points over the 35.0% target (\$33,156 ahead on \$135,400 this financial year to date).

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

October's client work made \$45,720 gross margin (64.2%). Consultant time not charged to client work took \$15,410 and overheads \$51,070, leaving (\$20,760) profit before tax ((29.1%) of revenue). To cover overheads, client work needs a 93.3% gross margin on average.

Gross margin on client work	\$45,720
Consultant wages and on-costs	\$38,750
Consultant time charged to client work (at cost)	\$23,340
Consultant time not charged to client work	\$15,410
Gross profit (the P&L)	\$30,310
Overheads (operating expenses, depreciation, interest)	\$51,070
Profit before tax (the P&L)	(\$20,760)
Revenue	\$71,260
Gross margin on client work, %	64.2%
Profit before tax, % of revenue	(29.1%)
Gross margin client work need just to cover overheads and time not charged	93.3%
