

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: January 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

December 2025

Locked

December 2025 is locked (closed 5 Jan 2026). These numbers won't change.

January 2026

Locked

January 2026 is locked (closed 3 Feb 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

January's client work made \$59,850 gross margin (64.8%). Consultant time not charged to client work took \$8,330 and overheads \$51,360, leaving \$160 profit before tax (0.2% of revenue). To cover overheads, client work needs a 64.6% gross margin on average.

Gross margin on client work	\$59,850
Consultant wages and on-costs	\$38,750
Consultant time charged to client work (at cost)	\$30,420
Consultant time not charged to client work	\$8,330
Gross profit (the P&L)	\$51,520
Overheads (operating expenses, depreciation, interest)	\$51,360
Profit before tax (the P&L)	\$160
Revenue	\$92,370
Gross margin on client work, %	64.8%
Profit before tax, % of revenue	0.2%
Gross margin client work need just to cover overheads and time not charged	64.6%
