

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: January 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

December 2025

Locked

December 2025 is locked (closed 5 Jan 2026). These numbers won't change.

January 2026

Locked

January 2026 is locked (closed 3 Feb 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

January's jobs made \$58,190 gross margin (35.3%). Technician time not charged to jobs took \$4,620 and overheads \$58,730, leaving (\$5,160) profit before tax ((3.1%) of revenue). To cover overheads, jobs need a 38.4% gross margin on average.

Gross margin on jobs	\$58,190
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$49,980
Technician time not charged to jobs	\$4,620
Gross profit (the P&L)	\$53,570
Overheads (operating expenses, depreciation, interest)	\$58,730
Profit before tax (the P&L)	(\$5,160)
Revenue	\$164,780
Gross margin on jobs, %	35.3%
Profit before tax, % of revenue	(3.1%)
Gross margin jobs need just to cover overheads and time not charged	38.4%

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

January's client work made \$59,850 gross margin (64.8%). Consultant time not charged to client work took \$8,330 and overheads \$51,360, leaving \$160 profit before tax (0.2% of revenue). To cover overheads, client work needs a 64.6% gross margin on average.

Gross margin on client work	\$59,850
Consultant wages and on-costs	\$38,750
Consultant time charged to client work (at cost)	\$30,420
Consultant time not charged to client work	\$8,330
Gross profit (the P&L)	\$51,520
Overheads (operating expenses, depreciation, interest)	\$51,360
Profit before tax (the P&L)	\$160
Revenue	\$92,370
Gross margin on client work, %	64.8%
Profit before tax, % of revenue	0.2%
Gross margin client work need just to cover overheads and time not charged	64.6%
