

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: March 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

February 2026

Locked

February 2026 is locked (closed 3 Mar 2026). These numbers won't change.

March 2026

Locked

March 2026 is locked (closed 2 Apr 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

March's jobs made \$68,158 gross margin (35.6%). Technician time not charged to jobs took (\$1,092) and overheads \$59,200, leaving \$10,050 profit before tax (5.2% of revenue). To cover overheads, jobs need a 30.3% gross margin on average.

Gross margin on jobs	\$68,158
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$55,692
Technician time not charged to jobs	(\$1,092)
Gross profit (the P&L)	\$69,250
Overheads (operating expenses, depreciation, interest)	\$59,200
Profit before tax (the P&L)	\$10,050
Revenue	\$191,500
Gross margin on jobs, %	35.6%
Profit before tax, % of revenue	5.2%
Gross margin jobs need just to cover overheads and time not charged	30.3%

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

March's client work made \$69,145 gross margin (62.9%). Consultant time not charged to client work took \$10,380 and overheads \$51,560, leaving \$7,205 profit before tax (6.6% of revenue). To cover overheads, client work needs a 56.4% gross margin on average.

Gross margin on client work	\$69,145
Consultant wages and on-costs	\$46,500
Consultant time charged to client work (at cost)	\$36,120
Consultant time not charged to client work	\$10,380
Gross profit (the P&L)	\$58,765
Overheads (operating expenses, depreciation, interest)	\$51,560
Profit before tax (the P&L)	\$7,205
Revenue	\$109,865
Gross margin on client work, %	62.9%
Profit before tax, % of revenue	6.6%
Gross margin client work need just to cover overheads and time not charged	56.4%

Type of work: All
