

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: May 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

April 2026

Locked

April 2026 is locked (closed 5 May 2026). These numbers won't change.

May 2026

Locked

May 2026 is locked (closed 2 Jun 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

May's jobs made \$63,105 gross margin (39.0%). Technician time not charged to jobs took \$5,402 and overheads \$59,270, leaving (\$1,567) profit before tax ((1.0%) of revenue). To cover overheads, jobs need a 39.9% gross margin on average.

Gross margin on jobs	\$63,105
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$49,198
Technician time not charged to jobs	\$5,402
Gross profit (the P&L)	\$57,703
Overheads (operating expenses, depreciation, interest)	\$59,270
Profit before tax (the P&L)	(\$1,567)
Revenue	\$161,963
Gross margin on jobs, %	39.0%
Profit before tax, % of revenue	(1.0%)
Gross margin jobs need just to cover overheads and time not charged	39.9%

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

May's client work made \$49,410 gross margin (64.1%). Consultant time not charged to client work took \$19,920 and overheads \$51,750, leaving (\$22,260) profit before tax ((28.9%) of revenue). To cover overheads, client work needs a 93.0% gross margin on average.

Gross margin on client work	\$49,410
Consultant wages and on-costs	\$46,500
Consultant time charged to client work (at cost)	\$26,580
Consultant time not charged to client work	\$19,920
Gross profit (the P&L)	\$29,490
Overheads (operating expenses, depreciation, interest)	\$51,750
Profit before tax (the P&L)	(\$22,260)
Revenue	\$77,090
Gross margin on client work, %	64.1%
Profit before tax, % of revenue	(28.9%)
Gross margin client work need just to cover overheads and time not charged	93.0%
