

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: July 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

June 2026

Locked

June 2026 is locked (closed 2 Jul 2026). These numbers won't change.

July 2026

Locked

July 2026 is locked (closed 4 Aug 2026). These numbers won't change.

October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

July's jobs made \$71,121 gross margin (36.8%). Technician time not charged to jobs took (\$2,214) and overheads \$59,440, leaving \$13,895 profit before tax (7.2% of revenue). To cover overheads, jobs need a 29.6% gross margin on average.

Gross margin on jobs	\$71,121
Technician wages and on-costs	\$54,600
Technician time charged to jobs (at cost)	\$56,814
Technician time not charged to jobs	(\$2,214)
Gross profit (the P&L)	\$73,335
Overheads (operating expenses, depreciation, interest)	\$59,440
Profit before tax (the P&L)	\$13,895
Revenue	\$193,245
Gross margin on jobs, %	36.8%
Profit before tax, % of revenue	7.2%
Gross margin jobs need just to cover overheads and time not charged	29.6%

Year to date against the same period last year

3.5%

\$193,245 against \$186,760

Gross margin, year to date

36.8%

\$71,121 before overheads

What it shows

Revenue is 3.5% up on the same period last year, year to date (\$193,245 against \$186,760). Maintenance contracts make the highest gross margin (59.5%); Installations the lowest (28.3%). The business needs 29.6% gross margin just to cover overheads.

What you'd do about it

Installations: 28.3% gross margin, 6.7 points under the 35.0% target: about \$8,580 on \$127,600 of revenue this financial year to date. It's below the 29.6% needed to cover overheads, too. Maintenance contracts: 59.5% gross margin, 24.5 points over the 35.0% target (\$9,941 ahead on \$40,500 this financial year to date).

Total	\$193,245	\$186,760	3.5%	\$71,121	36.8%

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at \$60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

July's client work made \$73,075 gross margin (60.5%). Consultant time not charged to client work took \$4,620 and overheads \$52,050, leaving \$16,405 profit before tax (13.6% of revenue). To cover overheads, client work needs a 46.9% gross margin on average.

Gross margin on client work	\$73,075
Consultant wages and on-costs	\$46,500
Consultant time charged to client work (at cost)	\$41,880
Consultant time not charged to client work	\$4,620
Gross profit (the P&L)	\$68,455
