

SAMPLE DATA · invented figures for demonstration

## Which jobs actually make money?

**Period: February 2026.** Every job's gross margin: revenue less materials, subcontractors and technician time at \$68 an hour (fully loaded: wages and all on-costs). Before overheads, so this is not profit. Pick a type of job and every number, chart and note on the page follows it.

### How final is this data?

- January 2026

Locked

January 2026 is locked (closed 3 Feb 2026). These numbers won't change.
- February 2026

Locked

February 2026 is locked (closed 3 Mar 2026). These numbers won't change.
- October 2026

Incomplete

October 2026 is still in progress: figures to 6 Oct only.

### Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

### From gross margin to profit

February's jobs made \$75,710 gross margin (38.6%). Technician time not charged to jobs took (\$4,832) and overheads \$59,320, leaving \$21,222 profit before tax (10.8% of revenue). To cover overheads, jobs need a 27.7% gross margin on average.

|                                                                     |           |
|---------------------------------------------------------------------|-----------|
| Gross margin on jobs                                                | \$75,710  |
| Technician wages and on-costs                                       | \$54,600  |
| Technician time charged to jobs (at cost)                           | \$59,432  |
| Technician time not charged to jobs                                 | (\$4,832) |
| Gross profit (the P&L)                                              | \$80,542  |
| Overheads (operating expenses, depreciation, interest)              | \$59,320  |

## Type of job: All jobs

Job gross margin, February · All jobs

**38.6%**

January 35.3%

### Job gross margin by type of job, February 2026

Gross margin \$

What it shows

In February maintenance contracts made a 59.6% job gross margin, installations made a 31.2% job gross margin, call-outs and repairs made a 43.8% job gross margin (technician time at \$68 an hour, wages and all on-costs). Jobs need 27.7% just to cover overheads.

What you'd do about it

Maintenance contracts: 59.6% gross margin, the most profitable work you do. Every type of job clears it; installations only just.

Type of job: Maintenance contracts

Job gross margin, February · Maintenance contracts

59.6%

January 59.5%

Job gross margin on each maintenance contract, February 2026

Gross margin %

Gross margin \$

What it shows

All 13 contracts made more than the 35.0% job gross margin target. The thinnest was Kangaroo Point townhouses at 58.2% job gross margin: 14.0 h of technician time on a \$2,400 monthly fee.

What you'd do about it

The Kangaroo Point townhouses contract: 58.2% gross margin, 30.5 points clear of the 27.7% overheads need. Maintenance contracts overall: 59.6% gross margin.

Type of job: Installations

Job gross margin, February · Installations

31.2%

January 23.9%

Job gross margin on each installation invoiced in February 2026

Gross margin %

Gross margin \$

What it shows

3 of the 4 installation jobs invoiced in February made less than the 35.0% job gross margin target. The Salisbury gym air-con install made a 22.9% job gross margin: 71.5 h of technician time (\$4,862) and \$1,300 of subcontractors on a \$18,100 job. Jobs need 27.7% gross margin just to cover overheads.

What you'd do about it

Below the 27.7% overheads need: Kedron shop switchboard upgrade (24.1%), Salisbury gym air-con install (22.9%). Most profitable: Taringa warehouse EV chargers (40.5%).

Type of job: Call-outs and repairs

Job gross margin, February · Call-outs and repairs

43.8%

January 43.3%

Technician time charged, February

\$20,446

69.1% of call-out revenue

Materials charged, February

\$9,126

\$7,020 at cost, plus 30%

Job gross margin on call-outs by length, February 2026

Gross margin %

Gross margin \$

What it shows

57 call-outs in February billed \$20,446 of technician time and \$9,126 of materials (\$7,020 at cost plus 30%), and made a 43.8% job gross margin between them. Gross margins run from 37.0% to 47.8% by length: the hourly rate covers technician time comfortably, so the gross margin mostly moves with how much material goes on the van.

What you'd do about it

Call-outs: 43.8% gross margin, 16.1 points clear of the 27.7% overheads need.
