Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at \$68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages always include all on-costs: super, payroll tax, workers' compensation insurance and leave.

From gross margin to profit

May's jobs made \$63,105 gross margin (39.0%). Technician time not charged to jobs took \$5,402 and overheads \$59,270, leaving (\$1,567) profit before tax ((1.0%) of revenue). To cover overheads, jobs need a 39.9% gross margin on average.
